

Instructions for use:

1.Getting started

LC90 is powered by 2*18650 rechargeable lithium battery. A USB-Type-C cable is supplied in the package.

Press and hold the () button to power on.To shutdown the radio,press and hold the same button.

2.Charging battery

To charge the battery,connect the Type-C cable to 5V power adapter,You can use any mobile phone charger,The mobile quick charge protocol ensures that the output voltage of the charger will adjust to 5V when charging to radio,but **DO NOT USE THE CHARGER OF IPAD OR COMPUTER!**

Note:The charging might take much longer to complete if the radio is playing while charging.

3.Bluetooth playback

Press the BT () Key to make the radio enter bluetooth mode.

Open your device's bluetooth setting,and active the pairing mode,the device scans for bluetooth devices.

When the radio is found,your bluetooth device shows its name "Choyong-LC90",select the radio and connect it.

8

Then you can start playback on your bluetooth device,you can control the playback by the radio(next,previous,pause...ect).

The connection will be restored automatically when both devices are in range and the radio in bluetooth mode.

4.Software Update

There may be software release to upgrade features of the radio from time to time.Check the update regularly to keep your radio up to date with the latest software.

Caution:Do not do any operation during the upgrade progress!!! Or the radio will be damaged!

5.Telescopic antenna assist Middle Wave

An auxiliary middle wave receiving circuit is integrated in the radio,you can try to use telescopic antenna to increase the MW signal strength and to improve the performance of SNR ,espeacialy effective outdoors.

9

Trouble Shooting:

Problem	Solutions
Connect to the network successfully,but unable to play particular stations.	<ul style="list-style-type: none">The station is not broadcasting at this time of the day,remember it maybe located in a different time zone.The station has too many people trying to attach to.The station server capacity is not large enough.The internet connection between the radio and the radio station server is too slow or unstable to support the date rate of broadcast.The link of the radio is out of the date,please contact us to update the station list.
The radio got freeze or no response	Forced restart the radio,Press the () and hold for 5 seconds until the radio restarted (show white screen),then release the button.
Can not connect to Wi-Fi network	Confirm that the Wi-Fi can access the internet (i.e.can browse the web) using the same network.
Insufficient Wi-Fi signal strength	Check the distance to router,see if a computer/mobile phone can connect to the network in this location,if the signal is weak,please optimize the distance of the router's location.

Product Specification:

Model:	LC90	
Colour:	Space gray	
Weight:	640g	
Size:	200*122*40mm	
FM	Frequency	64-108MHz
	Step	10KHz/100KHz
LW	Frequency	153-279KHz
	Step	1KHz/9KHz
MW	Frequency	522-1710KHz
	Step	1KHz/9KHz/10KHz
SW	Frequency	2300-26100KHz
	Step	1KHz/5KHz
Speaker	15W	
Battery:	Replaceable and rechargeable 18650*2	
Network:	4G Band supported: FDD Band2/3/4/5/ TDD Band38/39/40/41.	
Bluetooth version:	5.2	
TF card:	Maximum 32 GB	
Earphone:	3.5mm jack	
Extenna Antenna:	3.5mm jack
